

NOVÝ EVROPSKÝ SYSTÉM ZNAČENÍ

MOTORY POWERBUILT™, INTEK™ A PROFESSIONAL SERIES™

PROČ JSME JE ZMĚNILI?

Briggs & Stratton zavede v Evropě od roku 2010 nový systém značení velkých vertikálních motorů, který je založen na konceptu sérií podobně, jako systém zavedený před 3 lety pro malé vertikální motory. Rozhodnutí provést tuto změnu na velkých vertikálních motorech se zakládá na ohromujícím ohlasu z trhu, který si koncept SERIES™ vysloužil na malých motorech s vertikální hřídelí.

POWERBUILT™
